

Thank you for your letter of September 25, 2007. There is no General Election for 2007. The personal funds in question that were reported on 4/19 and 6/1 of this year refer to the General Election for 2006. These funds were marked for the reduction of the outstanding debt from the 2006 election. The FEC software does not allow us to put the 2006 year in. It automatically marks these funds in the current calender year. I do not know how to correct this, if even we can correct this in the software.

Will look foward to a solution from you - if there is one.

Thank you
